

# ALLONTANANTE PER GATTI

Technical data sheet n° 991 Rev. 03/10/2019

Cats repellent

## APPLICATIONS:

The product takes away from cats the habit of dirtying places near homes, such as doorways, porches, balconies, terraces, sidewalks, gates, walls, cellars of condominiums, shop entrances and public buildings.

It works by releasing an active ingredient whose scent is difficult to tolerate for cats, which stay away from the treated areas.

## METHOD OF USE:

Allontanante per gatti is ready to use.

Shake well before use. Spray abundantly on the parts to be treated from a distance of 20-30 cm.

If the product is washed out with rain, it is advisable to repeat the application.

Under normal conditions the product retains its non-habitable properties for about 10 days.

Since some porous materials may stain with the product, it is recommended to test it in advance on a limited part.

## ADVANTAGES:

- Based on natural essential oils
