

ALLONTANANTE PER PICCIONI

Technical data sheet n° 992 Rev. 03/10/2019

Pigeons repellent

APPLICATIONS:

Allontanante per piccioni is a product that, if used regularly, keeps pigeons away from windowsills, balconies, terraces, railings, attics and any other area where the birds have the habit of stopping.

It works by releasing an active ingredient whose scent keeps the pigeons away from the treated areas.

METHOD OF USE:

Allontanante per piccioni is ready to use.
Shake well before use.

Remove and carefully eliminate poultry excrement before applying the product.
Spray the part to be treated abundantly from a distance of 20-30 cm.

If the product is washed out with rain, it is advisable to repeat the application.
Under normal conditions the product retains its repellent properties for about 10 days.

Since some porous materials may stain with the product, it is recommended to test it in advance on a limited part.

ADVANTAGES:

- Based on natural essential oils
