

## Industry Line

# Detergente idroalcolico

Technical sheet n° 1012  
Rev. 15/04/2020

## Alcohol > 70% -based sanitizing detergent for surfaces

### Category:

- Cleaners

### Applications:

- Alcohol > 70% -  
based sanitizing

### Strengths:

- high evaporation
- low residue
- high concentration  
of alcohol

## Applications

Alcohol-based surface cleaner (concentration above 70%). It's ideal not only for cleaning surfaces such as sanitary ware, shelves, handles, tables and surfaces in general, but also for those delicate surfaces or in case the smell of other sanitizers (for example hypochlorite) is annoying.

Available in different fragrances: mint pine (balsamic), rose and lemon.

Also available without perfume for surfaces and equipment in contact with food (HACCP). The product does not leave halos and does not stain. To clean painted surfaces, plastics and rubbers, carry out a preliminary test to check the compatibility of the product with the surface to be cleaned.

## How to use

The product is ready to use: spray on the surface to be sanitized, then clean with a soft cloth. The product does not require rinsing.

## Technical features

pH	6-8
Odor	alcoholic
Colour	Colorless
Density (20°C)	0,84-0,86 g/cm <sup>3</sup>

Product for professional use. The manufacturer declines all responsibility for any damage caused by the improper use of the product.
