Isogerm Spray

Technical sheet n° 614
Rev. 24/11/2017

Alcoholic Sanitizer Fast-acting

Category:

- Special products

Applications:

- Surface sanitation

Strengths:

- Effective and quick
- Practical use in spray

Applications

Isogerm Spray is a product containing alcohol (in quantities > 70%, net of propellants) suitable for environmental and surface sanitation. Isogerm Spray reduces odors and also blocks and prevents the formation of mold.

Suitable for:

- Community, places of coexistence
- Retirement homes
- Surgeries
- Sector rooms

Wherever there's a need for an environment free from contamination.

The product acts in a few minutes, while leaving an excellent mentholated clean scent.

How to use

Shake can well for a few seconds, then spray.

Depending on the type of desired effect, act as described below:

- **For room treatment:** Dispense the product 60 seconds for every 100 m³ of air to be treated.
- **For surfaces treatment:** dispense the product at a distance of 15-30 cm from the surfaces to be treated.

The average yield is 5 m² per can.

Fields of application

The product is not aggressive and can therefore be used safely on materials, such as:

- Aluminum and light alloys • Steel and ferrous metals • Plastics • Resins and PVC • Glass and ceramics

Product for professional use. The manufacturer declines all responsibility for any damage caused by the improper use of the product.
