

ALLONTANANTE PER CANI

Technical data sheet n° 990 Rev. 21/07/2020

Dogs repellent

APPLICATIONS:

The product takes away from dogs the habit of dirtying on the street and in places close to homes such as entrance halls, arcades, terraces, sidewalks, gates, walls, cellars of condos and shop entrances.

The product is harmless to people and animals.

It works by releasing an active ingredient whose scent is difficult to tolerate for dogs, which stay away from the treated areas.

METHOD OF USE:

Allontanante per cani is ready to use.

Shake well before use. Spray abundantly on the part to be treated from a distance of 20-30 cm.

If the product is washed out with rain, it is advisable to repeat the application.

Under normal conditions the product retains its non-habitable properties for about 10 days.

Since some porous materials may stain with the product, it is recommended to test it in advance on a limited part.

ADVANTAGES:

- Based on natural essential oils
