

## Industrial Line

# Extra Bianca

Technical data sheet  
n° 058 Rev. 11/05/2022

## Soft hand soap

### Applications

#### Category:

- Hand-cleaning

Extra Bianca is a mixture of natural and synthetic surfactants dispersed in polyurethane-based abrasive fillers. It looks like a soft, white paste with a very slight smell, able to cleanse even the dirtiest hands but at the same time respecting them.

In its formulation, we find glycerine, a product that is essential to prevent skin drying, due to frequent washing and to aggression of chemical products (oils, paints, etc.).

Extra Bianca is recommended for the cleansing of hands in processes in which oil, grease and solid particles tend to mix and firmly adhere to the epidermis, such as:

- Garage
- Vehicle body workshops
- Mechanical workshops
- Sheet metal industries
- Artisan workshops
- Hardware dealers, paint factories, etc.
- Industries in general.

**PLASTIC FREE**

### Method of Use

Use the product with dry hands and, after rubbing the hands, rinse thoroughly. If necessary, repeat the operation.

### Ingredients

AQUA, WOOD POWDER, SODIUM STEARATE, SODIUM DODECYLBENZENSULFONATE, HYDRATED SILICA, LAURETH-4, ZEA MAYS COB POWDER, GLYCERIN, TITANIUM DIOXIDE, POLYSORBATE 20, DIMETHICONE, SILICA, STEARETH-2, STEARETH-21, PARFUM, TETRASODIUM GLUTAMATE DIACETATE, XANTHAN GUM, MAGNESIUM CHLORIDE, MAGNESIUM NITRATE, CI 74180, METHYLCHLOROISOTHIAZOLINONE AND METHYLISOTHIAZOLINONE.

Do not store at temperatures above 40 ° C and below 5 ° C.

Close the container after use.

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.

### Technical features

Odour	slight & characteristic
colour	white – pale yellow
Appearance	soft paste
