

Chlorine-based effervescent detergent tablets

Category:

- Active chlorine detergent tablets

Applications:

- Environment and water masses treatment

Advantages:

- Practical use of tablets

Applications

Deter Tablet is a detergent product in the form of chlorine-based effervescent tablets, which dissolve immediately in contact with water, forming a solution with detergent properties.

Deter Tablet is particularly suitable for the cleaning of toilets, WC flush tanks, bathrooms, kitchens, canteens, medication rooms, storage tanks and any environment where maintaining a high level of hygiene is necessary.

Method of Use

For a ready-to-use solution: dissolve a tablet in 10 litres of water.

For a concentrated (4.5%) active chlorine solution: dissolve three tablets in one litre of water.

For toilets, use one tablet of Deter Tablet every week.

For storage tanks, use one tablet per 200 litres of water.
