Fluid hand wash cream

Category:

- hand wash

PLASTIC FREE

Applications

Extra Fluid is a semi-fluid hand cleaner, with a creamy white appearance and a floral scent. Extra Fluid cleanses well, without irritating the skin and thanks to its low viscosity it is easily "pumpable" through the dispenser. It is therefore not necessary to introduce the hands into the product container, thus guaranteeing maximum hygiene in the workplace. FIELDS OF USE: Extra Fluid can be used in all cases in which hand cleansing is required and in particular in:

- Mechanical sector (auto repairs)
- Metalworking workshops
- Large and small distribution
- Hardware and paint factories

How to use

With wet hands, take a dose of product and rub your hands to allow the disintegration and emulsion of the dirt, finally rinse. For very stubborn dirt, be careful to use the product with dry hands. If necessary, repeat the operation. The pH 8 of the product is well tolerated by the skin of the hands and helps the degreasing action. The abrasive contained in the product is a very fine mixture of various polyurethane granulometries, and is able to intervene in every point of the hands.

Produced and packaged in compliance with European Regulation 1223/2009 and subsequent updates. On request Skin irritation test.

Ingredients
