New Pool Calcare

Technical data sheet n° 238
Rev. 17/01/2017

Category:

- anti-limescale

Applications:

- Cleaning limescale-encrusted surfaces in bathrooms and kitchens

Strengths:

- Safe on sensitive surfaces
- Quick
- Effective

Product for professional use. The manufacturer declines all responsibility for any damage caused by an improper use of the product.

Anti-limescale with quaternary ammonium salts for all surfaces

Applications

New Pool Calcare acts on limescale and soap residues deposited on taps, sanitary fixtures and ceramics in bathrooms and kitchens.

Thanks to its balanced formula, New Pool Calcare is able to attack and dissolve residues without affecting chrome, mirrors and ceramic tiles, leaving it clean, degreased, shiny and with a pleasant floral scent. The formulation is suitable for use on many surfaces, except for marble and similar parts, for particular light alloys and on fiberglass.

Fields of use

New Pool Calcare finds its application in kitchens and bathrooms of all types of environments:

- Catering
- Domestic use
- Community
- Hotels

How to use

Spray the parts to be cleaned with the special nozzle, wait a few seconds and wipe with a brush or sponge.

Finally rinse thoroughly.

Alternatively, the product can be poured onto an absorbent cloth or sponge with which you can wipe the surfaces to be cleaned.
